About Me

As a passionate Web Developer and Designer with over a year of experience, I bring a creative approach to building responsive websites and crafting visually engaging designs. My toolkit includes Webflow, Framer, Wix, Figma, and React JS, enabling me to deliver customized digital solutions that resonate with users. I thrive on challenges and am committed to continuous learning and innovation, always aiming to push the boundaries of web design and development. My goal is to create digital experiences that not only meet client expectations but also inspire and delight users.

Skills

- Webflow
- HTML/CSS
- JavaScript / jQuery
- Framer
- Figma
- Bootstrap
- React JS
- Python

Course

Jan 2023 - Jun 2023

Besant Technologies

Fullstack Development - Python

At Besant Technologies, I honed my web development skills through key projects. I created a sample e-commerce UI interface, showcasing my ability to design visually appealing, user-friendly shopping experiences. I also developed a portfolio website, highlighting my creativity and technical expertise.

Experience

Webflow Developer   August 2023 - Present
Victorflow

- At Victorflow, I dove into the world of web development, turning creative Figma designs into functional websites using HTML, CSS, and Bootstrap. My journey included crafting over 10 dynamic Webflow templates, each tailored to meet unique client needs and enhance user experience.
- A standout project was the Share market website, where I led the development of complex financial tools like EMI, SIP, and brokerage calculators using JavaScript and jQuery. My role extended beyond coding, as I collaborated with the team to ensure seamless integration and performance.
- I've also had the opportunity to tackle JavaScript and jQuery challenges across various client projects, consistently delivering innovative solutions that drive success.
- Independently, I've completed a series of impactful 6+ client projects.

My experience at Victorflow has been a journey of continuous learning and passion for web development. I thrive on transforming ideas into functional and visually compelling digital experiences, always aiming to exceed expectations and inspire users.

Math Tutor   November 2022 - July 2023
Focus Edumatics

As a dedicated Math Tutor for U.S. students, I embraced the challenge of remote education, crafting personalized math lessons that made complex concepts accessible and engaging. My approach was to transform abstract theories into practical understanding, helping students build confidence and excel in their studies.
